Hood-moldings, light conceals

Our range of products features not only hood-moldings and light conceals in any desired decorative foil but decorative high gloss foil or aluminium foil as well, not to mention genuine veneer and PVC coatings.

Designer profiles

High-quality hood-moldings and light conceals (e.g. country cottage design), coated in genuine veneer, PVC or high-quality decorative foil prefabricated to the highest standard of craftsmanship.

Skirting profiles

We supply assembled kitchen skirtings along with allocated joining parts, labelled and packaged, on a production-synchronous basis and to requirements at short notice.

Frame profiles

We can also prefabricate high-quality front panel frames from frame profiles of the utmost precision to your specific requirements, with any desired panel in glass or wood-based materials.

Uprights

Uprights in any desired version (with drill holes, dowel holes, notches, with sealing lips, etc.) can be produced to your specific requirements and allocated to orders as required.

Functional profiles

We can also produce functional profiles such as cross-members, running strips, roller shutter guidance rails, front pieces for drawers, etc. to your individual requirements.
